CURATORIAL NOTES

This watercolor explores the intersection of geometric abstraction and ancient Mediterranean aesthetics through the Mediterranean Echoes collection. The work translates the essential forms of

Cycladic art into contemporary watercolor language, creating a visual dialogue between past and present through simplified circular and linear elements.

Steel gray tones dominate the composition, with blue-violet hues appearing throughout the surface in varying intensities. The piece organizes overlapping circular forms along a central vertical axis, each shape rendered in translucent washes that allow underlying colors to show through. Cadet blue accents provide contrast within the larger circular elements, while darker purple tones define smaller geometric details and linear structures.

The work measures 15.0 × 21.0 cm on paper, part of the Mediterranean Echoes collection that examines connections between ancient and contemporary visual languages. Certificate of authenticity number 20241205-0296 accompanies the piece. The composition balances geometric precision with the fluid properties of watercolor, creating forms that reference both architectural elements and organic shapes found in Cycladic sculpture.

THE ARTIST
